

Client: Double Daggers Tattoo

Tattoo Shop

Temporary Retail Space

Double Daggers Tattoo, a top-rated tattoo shop based in Montville, Connecticut, is known for its experienced team of artists who prioritize both artistry and client comfort. In March 2025, Double Daggers reached out to Triumph Modular to address its space needs for the upcoming Connecticut Renaissance Faire, a major annual event in Lebanon, CT. The shop's goal was to create a professional, sanitary, and welcoming temporary tattoo studio that would appeal to the diverse and family-friendly crowd at the Faire.

Initially, Double Daggers considered a mobile office setup but, after further discussions, opted for an 8' x 20' office container as their temporary shop. This decision was driven by several practical factors: the office container was cost-effective, provided ground-level access for all attendees (eliminating the need for ramps, skirting, and tie-downs), and did not require restroom facilities since the Faire already offered public amenities. The container's clean, climate-controlled, two-office section layout allowed the team to maintain strict hygiene standards and create a comfortable environment for clients.

Double Daggers also appreciated that Triumph Modular offered new equipment and could guarantee the delivery date for the short-term rental. By choosing a modular solution, Double Daggers was able to provide the same high level of professionalism and safety that defined their permanent studio, while also making their services accessible to a wider audience at the Renaissance Faire.
